

MEMORANDUM FOR: Deputy Director/Intelligence

SUBJECT : Review of DD/I Projects, 1 January—1 October 1952

(The following review, requested by DD/I, is based on the DD/I Official Diary, the Minutes of the IAD meetings, and the substantive files of the Office of the DD/I for the period indicated. The major division is between "Major Projects" and "Minor Projects," although it is obvious that some projects treated here as "minor" assumed major proportions during the year and may become major problems again—e.g., Scientific and Technical Intelligence. Conversely, some projects treated here as "major" may be shortly reduced to minor projects, if not, in fact, minor at this time. This review does not include references concerning any special matters; such problems as USCIB, SCAG, AFSA, the Brownell Committee, Sanitization, PT, Station 61, etc., are omitted, although it should be noted that in the Diary of 22 May, 11, Mr. Becker indicated his desire to obtain, as a member of his staff, a man capable of handling such matters.)
